March Quarter FY24 Activities Report and Appendix 4C<sup>1</sup>

## Record quarterly revenue \$12.4m with cash flow benefits throughout Q4

### Highlights

- \$12.4m quarterly revenue (+16% QoQ) – a new record
- Growth driven by core Payments AU/NZ (+17% QoQ) and Payments International (+18% QoQ)
- \$4m+ annualised cost reduction program implemented - positive impact from April
- Further optimisation and divestment flowing from strategic review

**Novatti Group Limited (ASX: NOV) (Novatti or the Company)**, a leading fintech enabling businesses to pay and be paid, is pleased to provide an update on its March quarter performance (Q3 FY24).

Commenting on the results, Novatti CEO, Mark Healy, said:

“Substantial progress continues to be made in Novatti’s transformation. Since this transformation began at the start of Q1 FY24, quarterly revenue is now up 21% and quarterly expenses are now down 23%. In Q3 FY24 alone, Novatti achieved 16% revenue growth on the prior quarter to reach \$12.4m, which is a new quarterly record for the business. Here, the potential of Novatti’s core AU/NZ Payments business in particular is starting to shine through, with revenue increasing 17% on the previous quarter.

“This record quarter of revenue follows the implementation of a market-led, customer focused approach that has already seen early wins, including contract renewal with a major BNPL partner for card issuing and payment services and a new partnership secured with one of Australia’s largest food delivery platforms. These wins are further complemented by ChinaPayments expanding into New Zealand, leveraging the success of its Australian business, as demand for Asian digital wallet payment services continues to open opportunities for Novatti to engage with new and existing clients.

<sup>1</sup> All figures throughout this document related to the March quarter remain unaudited unless stated otherwise.

“Further, the strong potential of Novatti’s Acquiring services was highlighted again in Q3, with the integration of one new client seeing its business within Novatti rank as an overall top 3 revenue generator within the first month of operation.

“While we are very pleased with this strong revenue growth, this needs to be balanced with equally strong cost reduction to move towards our overarching goal of positive operating cashflow. To this end, in Q3 FY24 we implemented a \$4m+ annualised cost reduction program. While this resulted in costs decreasing only slightly in Q3 to \$7.1m, the substantial positive financial impact of this annualised program is expected to be seen from Q4 and into FY25.

“We remain absolutely committed to achieve positive operating cashflow but have identified that our mid-2024 target is becoming increasingly challenging and is now likely to be towards the end of calendar year 2024. In particular, more work is needed to accelerate higher margin sales and to further manage expenses. Further, following the ongoing results of Novatti’s strategic review, we also expect decisions to be made on a number of additional optimisation and divestment measures in areas that do not meet Novatti’s long term financial goals.

“Regardless, we remain absolutely committed to achieving positive cashflow as soon as possible and will be implementing the measures necessary to deliver this.”

## Operations Update

### Business performance

Novatti has continued progressing its business transformation program that commenced in Q1 FY24, with Stage 1 having focused on streamlining business operations, and Stage 2 commencing in Q3 with a focus on expense reduction.

While expenses of \$7.1m for Q3 FY24 were a small reduction on the prior quarter, this result does not include any substantial impact from the \$4m+ annualised cost reduction program implemented in Q3, with this program’s annualised savings expected to be materialised from Q4 and into FY25. Several decisions are expected to be made on a number of additional optimisation and divestment measures in areas that do not meet Novatti’s long term financial goals, all with the view of achieving positive cashflow as soon as possible.

Importantly, to date Novatti’s cost reduction efforts have not had a negative impact on revenue. Q3 FY24 revenue of \$12.4 million represented a near 16% increase on the previous quarter (Quarter-on-Quarter) and is a new quarterly record for the Company. At the same time, Novatti has seen several early wins from its market led customer focus, with new and renewed customer engagements from the Buy Now Pay Later, food delivery, accommodation and accounting services sectors.

Quarterly margin for Payments AU/NZ remained steady at 45% and has increased 500 basis points since the start of FY24. Reported cash consumption in the Appendix 4C of \$4.32m does not materially reflect the annualised impact of cost reduction measures announced in Q3, and still includes Q3 expenses of \$0.62m for International Bank of Australia (IBOA), which is included as a consolidated

entity for accounting purposes due to Novatti's 86% shareholding. Despite being classified as a consolidated entity, IBOA's operations remain independent of Novatti with its own Board of Directors and executive team.

At the completion of Q3 FY24, Novatti held nearly \$9.5m in cash.

In accordance with Listing Rule 4.7C, payments made to related parties and their associates are included in item 6.1 of the Appendix 4C, which incorporates directors' fees, salaries and superannuation.

### Investments and Business Portfolio Update

The International Bank of Australia (IBoA) Series A capital raising continues, with additional significant subscriptions currently under final negotiation. If additional funds are not received imminently IBoA will request to return the Restricted License to the Australian Prudential Regulation Authority (APRA). Novatti will not be participating in additional capital raisings for IBoA.

AUDD progressed with its commercial strategy to build out its capabilities through partnership and blockchain integrations. AUDD is now self-funded through FY24 following its recent \$600k funding round, with Novatti retaining an 80% interest. Through Q3 FY24, circulating supply of AUDD reached a new high of \$3.2m and ended the quarter at \$1.8m. New partners secured by AUDD during Q3 FY24 include popular onboarding gateway Banxa which enables AUDD to be used widely recognised and trusted payment methods like Visa and Mastercard. AUDD can now also be purchased with major currencies such as USD, EURO, HKD, and SGD. This caters for a global user base, allowing more people around the world to access and utilise AUDD in their preferred currency.

### Capital Raising

In Q3 FY24, Novatti announced a capital raising comprised of a convertible note facility for up to \$3.5m (subject to shareholder approvals) and a Share Purchase Plan to support Novatti's business, fund additional collateral for growing Novatti's Payments Solutions division and working capital. A total of \$4.3 million (before costs) was successfully raised from this initiative.
